SUMMARY

Computer Science graduate with hands-on experience in full-stack web development specializing in Java and Spring Boot for backend, and JavaScript with React for frontend. Adept at building scalable and secure applications, coupled with a strong foundation in Data Structures and Algorithms.

EDUCATION

•Dr. A.P.J. Abdul Kalam Technical University

2020 – 2024

B.Tech in Computer Science

CGPA: 8.0

TECHNICAL SKILLS AND INTERESTS

Languages: C++, JavaScript, Java, SQL, Python

Frameworks: React.js, Spring Boot, Bootstrap, Tailwind CSS

Tools: Git, Postman, VS Code, IntelliJ, Figma, GitHub, JWT, REST APIs

Concepts: DSA, OOPS, DBMS, Operating Systems, Computer Networks

EXPERIENCE

•Tech Mahindra

Bengaluru, India

Associate Software Engineer

September 2024 – Ongoing

- Completed intensive training in Java, Spring Boot, JavaScript, and React.js with 800+ hours of hands-on experience in full-stack development.
- Contributing to the "Jumbo" eCommerce platform, managing backend APIs and working on frontend modules.
- Developed 8–10 mini projects during training including CRUD apps, JWT-secured systems, and form handling using Spring Security.

•Ava Intern

Remote

Frontend Developer Intern

January 2024 – March 2024

- Developed 10+ mini projects using React and JavaScript, implementing advanced UI techniques like infinite scroll, debouncing, and throttling.
- Improved application performance and user experience by reducing load time by 30% using state optimization and dynamic rendering.

PROJECTS

•QuickHire – Job Portal [\[GitHub\]](#)

Nov 2024 – Jan 2025

Spring Boot, MySQL, Thymeleaf, HTML, CSS, JavaScript

- Developed a job portal with recruiter and job seeker roles, supporting registration, login, and dashboard-based operations.
- Enabled job posting, resume uploads, job filters (WFH, Onsite), and profile management with CRUD operations.
- Improved backend performance using optimized DB queries and structured RESTful endpoints.

•KitabSangrah – Library Management System [\[GitHub\]](#)

Mar 2025 – Apr 2025

Spring Boot, React.js, MySQL, Tailwind CSS

- Built a full-stack app to manage library books, issue tracking, user authentication, and admin controls.
- Implemented dynamic React frontend with search, filters, and pagination; secured backend with JWT auth.
- Used REST APIs for CRUD operations on books and student profiles, enhancing system usability.

•NotesLock – Secure Notes Platform [\[GitHub\]](#)

May 2025 – Jun 2025

Spring Boot, React.js, JWT, Tailwind CSS, MySQL

- Developed a secure note-taking web app with JWT authentication and Spring Security.
- Enabled users to create, update, and delete encrypted notes; only accessible to authenticated users.
- Improved UX with real-time feedback, error handling, and responsive UI using Tailwind and React.

ACHIEVEMENTS

•Knight (Max. Rating – 1892) at **LeetCode**. Ranked under Top 6% among all LeetCode users.

•Pupil (Max. Rating – 1365) at **Codeforces**, which is the top competitive programming site.

•3-star (Max. Rating – 1698) at **CodeChef**.

•Mentor & DSA Instructor Mentored 300+ students and taught DSA in college programming club sessions.
