PROFESSIONAL EXPERIENCE

•Tech Mahindra — VF Corporation Client

Bengaluru, India

Associate Software Engineer (Frontend Developer)

July 2025 – Present

- Built features on **Canvas**, a multi-brand **Nuxt 3 SSR e-commerce platform** for The North Face, Timberland, and Vans using a domain-driven layered architecture with brand/region overrides.
- Developed reusable **Vue 3 + TypeScript** components following atomic design; documented with **Storybook** and API-mocked via **MSW**.
- Ensured **WCAG 2.1 AA** compliance — semantic HTML5, ARIA roles, keyboard navigation, and focus management.
- Integrated **LaunchDarkly** feature flags and consumed type-safe REST APIs from **OpenAPI/Swagger** auto-generated clients.
- Optimised performance via **lazy hydration**, Cloudinary images, **Akamai CDN** caching; enforced quality with **Vitest**, **ESLint**, and **SonarQube**.

•Tech Mahindra — Blue Shield of California Client

Bengaluru, India

Associate Software Engineer (Java Backend)

September 2024 – July 2025

- Developed scalable **Spring Boot** microservices for a greenfield enterprise healthcare application at **Blue Shield of California**.
- Designed and delivered **25+ RESTful APIs** covering Audit, Contact Management, Role Types, and Eligibility workflows.
- Optimized **SQL** queries and indexing on 100K+ record datasets, improving API response time by ~30%.
- Implemented **JWT authentication** and role-based authorization with **Spring Security**; contributed to API docs, unit testing, and Agile sprint deliveries.

•Ava Intern

Remote

Frontend Developer Intern

January 2024 – March 2024

- Built 15+ **React** applications with infinite scroll, debouncing, and throttling; reduced component load time by 30%.
- Enhanced UX metrics by 25% through dynamic rendering and state optimization strategies.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, C++, SQL, Python

Frameworks & Tech: Spring Boot, Spring Security, Vue 3, Nuxt 3, React.js, REST APIs, JWT, Pinia, Tailwind CSS, UnoCSS, Storybook, Vitest, SSR, MySQL, Supabase, Firebase

Tools: Git, Azure DevOps, LaunchDarkly, Postman, VS Code, Figma, SonarQube, ESLint

Competencies: Microservices, WCAG 2.1, SEO, CI/CD, Agile/Scrum, DSA, OOP, DBMS

PROJECTS

•NotesLock – Secure Notes Platform [GitHub]

Spring Boot, React.js, JWT, Tailwind CSS, MySQL

- Built a secure note-taking app with **JWT + Spring Security**; full **CRUD** with responsive **React.js + Tailwind CSS** UI and real-time feedback.
- Optimized **MySQL** queries and indexing, improving data retrieval by ~35%; applied global exception handling, validation, and pagination.

ACHIEVEMENTS

•**Knight** (Max Rating: 1892) at **LeetCode** — Top 6% among 5M+ users

•**Pupil** (Max Rating: 1365) at **Codeforces** — Top 15% global rank

•**3-star** (Max Rating: 1698) at **CodeChef**

•**DSA Mentor** Trained 300+ students in data structures and algorithms
